Located at the site of the former World Trade Center complex, the 9/11 Memorial pays tribute to the 2,983 people who were killed in the terror attacks of September 11, 2001 and February 26, 1993. Set within the footprints of the original twin towers, the two waterfalls and reflecting pools are surrounded by bronze parapets bearing the names of all those who lost their lives. Over 400 swamp white oaks are planted throughout Liberty Plaza, creating a space of quietude and contemplation.

In response to an international design competition held in 2003, 5201 designs from 63 nations were submitted. Architect Michael Arad's "Reflecting Absence" in collaboration with landscape architect Peter Walker was chosen for the memorial.

Because of the ongoing construction of other World Center projects, it is necessary to reserve passes to visit the site. Reservations may be made on the museum's website.

Not like the brazen giant of Greek fame,
 With conquering limbs astride from land to land;
 Here at our sea-washed, sunset gates shall stand
 A mighty woman with a torch, whose flame
 Is the imprisoned lightning, and her name
 Mother of Exiles. From her beacon-hand
 Glows world-wide welcome; her mild eyes command
 The air-brided harbor that twin cities frame.
 "Keep, ancient lands, your storied pomp!" cries she
 With silent lips. "Give me your tired, your poor,
 Your huddled masses yearning to breathe free,
 The wretched refuse of your teeming shore.
 Send these, the homeless, tempest-tost to me,
 I lift my lamp beside the golden door!"
